

Part 1

Business Financial Management and Its Environment 1 *Small Business Perspective Financial Management of Small Companies*

Chapter 1 / Finance and Business 2

- Forms of Business Organization 4
- Why Study Finance? 5
 - Focus on Practice: Financial Management in the Arts 6
- Financial Organization within a Company 8
- Tasks of a Financial Manager 10
- The Objective of Business Financial Management 13
- An Overview of the Determinants of Stock Price 15
 - Do You Know? Why Stock Prices Change 18
- Business Financial Management and Stock Price 20
 - Focus on Practice: Do Managers Really Try to Maximize Stock Price? 21
- Summary 22
- Readiness Test 25

Chapter 2 / Business and the Financial System 26

- The Financial System 27
- Functions of Financial Markets 30
 - Do You Know? Keynes on the Game of Investing 35
- Types of Financial Markets 36
- Financial Institutions 48
 - Do You Know? The Market Will Fluctuate 53
- Summary 55

Chapter 3 / Markets for Stocks and Bonds 62

- The Primary Market 63
 - Do You Know? A Red Herring to End All Red Herrings 68
- The Secondary Market 76
 - Do You Know? Decline in Corporate Listings May Foreshadow the End of Organized Exchanges 81
 - International Issues: Linking the World's Securities Markets 89
- Summary 90

Part 2

Valuation and the Cost of Capital

98

Small Business Perspective Financing a New Business 99**Chapter 4 / Time Value of Money: Cash Flows** 100

Opportunity Cost and Time Value 101

Mathematics of Time Value 102

Using Interest Factor Tables 112

Technique for Analysis: Using Financial Calculators to Solve

Time-Value-of-Money Problems 116

Technique for Analysis: Linear Interpolation 123

Using Equations and Tables to Solve Problems 128

Time Value of Money and Inflation 134

Summary 135

Case Problem 145

Chapter 5 / Security Returns, Risk, and the Cost of Capital 148

Security Valuation 149

Focus on Practice: Buying Stocks with Low P-E Ratios 162

Cost of Capital 163

Do You Know? Using the q Ratio as a Decision Tool 178

Summary 179

Chapter 6 / Valuation of Stock Portfolios 192

Reducing Risk by Diversifying 193

Measuring Nondiversifiable Risk 201

Do You Know? Valuing Stocks the *Value Line* Way 205

Graphing the Capital Asset Pricing Model 205

Difficulties in Applying the Capital Asset Pricing Model 212

Do You Know? Beating the Market 214

Security Market Line, Inflation, and Cost of Capital 215

International Issues: Foreign Investment and the Cost of Capital 220

Summary 221

Chapter 7 / Cost of Capital and Capital Structure Management 232

Calculating and Using the Cost of Capital 233

A Changing Cost of Capital 235

Issues in Cost of Capital and Capital Structure 247

Technique for Analysis: Theorists Speak Out on the Cost of Capital
and Capital Structure 250

EBIT-EPS Analysis 252

Summary 258

Focus on Practice: Theories That Have an Impact on Your Monthly Utility Bill 259

Part 3

Capital Budgeting

276

Small Business Perspective Investing in New Equipment 277**Chapter 8 / Capital Investments and Cash Flows** 278

Introduction to Capital Budgeting 279

International Issues: When Capital Investments Link Companies Globally 284

Net Investment Cash Outflow 285

Operating Cash Flows from Capital Investments 288

Technique for Analysis: Steps Required to Calculate Annual ACRS Depreciation 294

Focus on Practice: The Veil of Depreciation 303

Project-Disposal Cash Flow 304

Review of the Cash Flows from a Proposed Capital Investment 307

Summary 308

Chapter 9 / Capital-Budgeting Principles 318

Estimating Project Cash Flows 319

Undiscounted Evaluation Methods 323

Discounted Cash Flow Methods 326

Technique for Analysis: Finding IRR and NPV with a Financial Calculator 335

Do You Know? Criticism of Discounted Cash Flow Methods 340

Ranking and Selecting Projects 341

Monitoring Projects and the Post-Completion Audit 349

Summary 351

Appendix 9A / Evaluating Investment Projects Having Different Lives 365**Chapter 10 / Capital Budgeting and Risk** 370

Risk in Capital Projects 371

Examining Possible Profitability Levels 372

Do You Know? Risk Is a Four-Letter Word 382

Methods for Assessing Risk 383

Evaluation Methods Incorporating Risk 389

Capital Budgeting and the Capital Asset Pricing Model 394

Focus on Practice: Multiple Hurdle Rates Are Replacing Single Hurdle Rates 399

Coping with Risk in Capital Budgeting 400

Summary 401

Case Problem 414

Part 4

Managing Working Capital

420

Small Business Perspective Working-Capital Problems in a Small Company 421**Chapter 11 / Overview of Working-Capital Management** 422

Liquidity 423

Working-Capital Policy 426

Do You Know? Even (Especially?) in Hong Kong, Real Estate Lacks Liquidity 432

The Matching Principle of Working-Capital Management	433
Statement of Cash Flows	435
Working-Capital Management during Inflation	442
Focus on Practice: Hedging and the Matching Principle	446
Summary	447

Chapter 12 / Cash Management 458

Why Hold Cash?	459
Circulation of Cash	461
Cash Budgeting	464
Focus on Practice: The Problem of Too Much Cash	469
Speeding Up Inflows and Controlling Outflows	470
Focus on Practice: Cash Management Lessons from Hutton	474
Temporarily Excess Cash	475
International Issues: Computerized Global Cash Management	478
Summary	482

Chapter 13 / Managing Receivables and Inventory 492

Accounts Receivable and Credit Policy	493
Focus on Practice: Boston Takes Steps to Collect Accounts Receivable	505
Inventory Management	512
Focus on Practice: Electronic Data Interchange: Good for the Part but Bad for the Whole?	524
Summary	526

Chapter 14 / Managing Current Liabilities 538

Short-Term Financing	539
Trade Credit	540
Focus on Practice: Ford Motor Company Stretches Payables to Ease a Cash Crisis	545
Commercial Bank Borrowing	546
Calculating the Cost of Bank Loans	551
Secured Loans and Factoring	560
Focus on Practice: Goodbye Prime, Hello Cost-Based Lending and Securitization	564
Commercial Paper	565
Summary	568

Part 5

Analyzing and Planning Financial Performance

580

<i>Small Business Perspective Financial Planning in a Small Company</i>	581
---	-----

Chapter 15 / Analyzing Financial Performance 582

Financial Statement Analysis	583
Company Trends and Industry Comparisons	584
Classification of Financial Ratios	589
Profitability Ratios	591
Do You Know? A Misconception about Profit Rates	596

Asset Management Ratios	597
Debt Management Ratios	603
Liquidity Ratios	608
Focus on Practice: The Changing Liquidity of Corporate America	609
Using Financial Ratios to Assess Overall Financial Performance	611
A Procedure for Financial Statement Analysis	615
Scope and Limitations of Financial Ratios	617
International Issues: Investor Beware When Interpreting Foreign Financial Reports	619
Summary	620

Chapter 16 / Financial Forecasting and Planning 636

Sales Forecasting	637
Percent-of-Sales Forecasting	641
Break-Even Analysis	652
Do You Know? Forecasting and Inflation	652
Focus on Practice: The Break-Even Point for Major League Baseball Teams	662
Profit and Fixed Costs	663
Summary	670

Part 6

Institutional Features of Long-Term Financing

686

Small Business Perspective Financing Expansion of the Company 687

Chapter 17 / Bonds, Convertibles, and Warrants 688

Issuing Corporate Bonds	689
Bond Rates vs. Money Market Rates	691
The Bond Indenture	698
Types of Bonds	700
Focus on Practice: Two Ways to Junk Bonds	704
Convertible Bonds	707
Warrants	714
Security Market Line	718
International Issues: Global Markets Provide New Sources of Debt Capital	719
Summary	720

Appendix 17A / Analysis of Refunding a Bond 734

Chapter 18 / Common Stock and Preferred Stock 738

Common Stock	739
Focus on Practice: A Tale of Two New Issues: The Nonfinancial Costs of an Initial Public Offering	742
Preferred Stock	757
Financing with Corporate Securities	763
Focus on Practice: Creative Financing	764
Summary	766

Chapter 19 / Internal Financing and Dividend Policy 778

Internal Financing	779
Managing Dividend Payments	780
Influences on the Dividend Decision	783
Dividend Policies	789
Focus on Practice: Do Dividends Matter? Well . . .	796
Stock Dividends and Stock Splits	797
Focus on Practice: A Look at the Cost of a Stock Split	801
Repurchase of Common Stock	802
Dividend Policy and Signaling	803
Summary	806

Part 7**Special Topics****816***Small Business Perspective Leasing and International Expansion 817***Chapter 20 / Intermediate-Term Financing and Leasing 818**

Terms Loans	819
Do You Know? A Look at Usury Laws	825
Conditional Sales Contracts	826
Leasing	828
Advantages of Leasing	832
Leasing and Debt Capacity	833
Financial Analysis of Leasing	835
Summary	841
Focus on Practice: A Tax Boost to Leasing	842

Chapter 21 / Merger, Reorganization, and Bankruptcy 854

Life Cycle of a Company	855
Mergers and Acquisitions	858
Do You Know? Who Won When Ma Bell Was Dismembered?	862
Evaluating Target Companies	865
Profitability of Mergers and Acquisitions	869
Takeover Defenses	872
International Issues: Global Mergers and Acquisitions	873
Coping with Failure	874
Summary	881

Chapter 22 / International Financial Management 892

Foreign Exchange Markets	893
Financing Multinational Business	898
International Issues: Roller Coaster Currency Markets	899
Risks in Foreign Business	902
International Issues: Eurocurrency That Cost a U.S. Bank Big Bucks	903
Capital Budgeting by a Multinational Company	913
Summary	914
International Issues: Misinterpretation and a Financial Blunder	915

Appendix A / Answers to Odd-Numbered Problems A-1

Appendix B / Mathematical Tables B-1

Appendix C / Professional Certification in Finance C-1

Index I-1
