ı	Capital budgeting: an overview	1
	Study objectives	2
	Shareholder wealth maximization and net present value	3
	Classification of investment projects	4
	The capital budgeting process	5
	Organization of the book	9
	Concluding comments	10
	Review questions	11
2	Project cash flows	12
	Study objectives	14
	Essentials in cash flow identification	14
	Example 2.1	15
	Example 2.2	16
	Asset expansion project cash flows	23
	Example 2.3. The Delta Project	27
	Asset replacement project cash flows	31
	Example 2.4. The Repco Replacement Investment Project	32
	Concluding comments	3.4
	Review questions	35
	Forecasting cash flows: quantitative techniques and routes	37
3		39
	Study objectives	39
	Quantitative techniques: forecasting with regression analysis; forecasting with time-trend projections; forecasting using	
	smoothing models	39

vi Contents

	More complex time series forecasting methods	49
	Forecasting routes	51
	Concluding comments	52
	Review questions	53
4	Forecasting cash flows: qualitative or judgemental techniques	55
	Study objectives	56
	Obtaining information from individuals	56
	Using groups to make forecasts	60
	The Delphi technique applied to appraising forestry projects	64
	Example 4.1. Appraising forestry projects involving new species	65
	Example 4.2. Collecting data for forestry projects involving new	
	planting systems	66
	Scenario projection	69
	Example 4.3. Using scenario projection to forecast demand	70
	Concluding comments: which technique is best?	71
	Review questions	73
5	Essential formulae in project appraisal	74
	Study objectives	75
	Symbols used	75
	Rate of return	76
	Example 5.1	76
	Note on timing and timing symbols	76
	Future value of a single sum	77
	Example 5.2	77
	Example 5.3	78
	Present value of a single sum	78
	Example 5.4	78
	Example 5.5	79
	Future value of a series of cash flows	79
	Example 5.6	79
	Present value of a series of cash flows	80
	Example 5.7	80
	Example 5.8	80
	Present value when the discount rate varies	81
	Example 5.9	81
	Present value of an ordinary annuity	81
	Example 5.10	82
	Present value of a deferred annuity	83
	Example 5.11	83
	Example 5 12	83

Perpetuity Net present value		84
