About the Authors	xxxi

PART ONE Introduction

1	Economics and the economy	2
1.1	How economists think about choices	3
1.2	Economic issues	5
1.3	Scarcity and the competing use of resources	11
1.4	The role of the market	13
1.5	Positive and normative	16
1.6	Micro and macro	17
	Summary	19
	Review questions	19
2	Tools of economic analysis	21
2.1	Economic data	22
2.2	Index numbers	24
2.3	Nominal and real variables	26
2.4	Measuring changes in economic variables	28
2.5	Economic models	28
2.6	Models and data	29
2.7	Diagrams, lines and equations	31
2.8	Another look at 'other things equal'	33
2.9	Theories and evidence	34
2.10	Some popular criticisms of economics and economists	34
	Summary	36
	Review questions	37
3	Demand, supply and the market	40
3.1	The market	40
3.2	Demand, supply and equilibrium	40
3.3	Demand and supply curves	43
3.4	Behind the demand curve	45
3.5	Shifts in the demand curve	46

3.6	Behind the supply curve	48
3.7	Shifts in the supply curve	50
3.8	Consumer and producer surplus	50
3.9	Free markets and price controls	52
3.10	What, how and for whom	55
	Summary	56
	Review questions	57

PART TWO Positive microeconomics

4	Elasticities of demand and supply	60
4.1	The price responsiveness of demand	60
4.2	Price, quantity demanded and total expenditure	67
4.3	Further applications of the price elasticity of demand	70
4.4	Short run and long run	71
4.5	The cross-price elasticity of demand	72
4.6	The effect of income on demand	72
4.7	Inflation and demand	76
4.8	Elasticity of supply	76
4.9	Taxation and elasticity: who really pays the tax?	78
	Summary	80
	Review questions	81
5	Consumer choice and demand decisions	84
5.1	Demand by a single consumer	84
5.2	Adjustment to income changes	95
5.3	Adjustment to price changes	97
5.4	The market demand curve	105
5.5	Complements and substitutes	105
5.6	Transfers in kind	107
	Summary	108
	Review questions	109
	Appendix: Consumer choice with measurable utility	111
6	Introducing supply decisions	116
6.1	Business organization	116
6.2	A firm's accounts	117
6.3	Firms and profit maximization	122

6.4	The firm's supply decision	123	9	Market structure and imperfect competition	196
6.5	Marginal cost and marginal revenue	124	9.1	Why market structures differ	197
6.6	Marginal cost and marginal revenue curves	130	9.2	Monopolistic competition	200
	Summary	134	9.3	Oligopoly and interdependence	202
	Review questions	135	9.4	Game theory and interdependent decisions	204
7	Costs and supply	139	9.5	Reaction functions	206
7.1	Inputs and output: the production function	139	9.6	Entry and potential competition	213
7.2	Production in the short run: diminishing marginal returns	141	9.7	Strategic entry deterrence	215
7.3	Short-run costs	145	9.8	Summing up	217
7.4	A firm's output decision in the short run	150		Summary	217
7.5	Production in the long run	151		Review questions	218
7.6	Long-run total, marginal and average costs	153	10	The labour market	221
7.7	Returns to scale	155	10.1	The firm's demand for factors in the long run	222
7.8	The firm's long-run output decision	160	10.2	The firm's demand for labour in the short run	223
7.9	The relationship between short-run and long-run average costs	161	10.3	The industry demand curve for labour	226
	Summary	161	10.4	The supply of labour	227
	Review questions	163	10.5	Industry labour market equilibrium	233
	Appendix: Isoquants and the choice of production technique in the long run	166	10.6	Transfer earnings and economic rents	236
8	Perfect competition and pure monopoly	170	10.7	Do labour markets clear?	238
8.1	Perfect competition	171	10.8	Wage discrimination	242
8.2	A perfectly competitive firm's supply decision	172		Summary	245
8.3	Industry supply curves	175		Review questions	246
8.4	Comparative statics for a competitive industry	177	11	Factor markets and income distribution	248
8.5	Pure monopoly: the opposite limiting case	179	11.1	Physical capital	249
8.6	Profit-maximizing output for a monopolist	180	11.2	Rentals, interest rates and asset prices	250
8.7	Output and price under monopoly and competition	184	11.3	Saving, investment and the real interest rate	255
8.8	A monopoly has no supply curve	187	11.4	The demand for capital services	256
8.9	Monopoly and technical change	190	11.5	The supply of capital services	257
8.10	Natural monopoly	191	11.6	Equilibrium and adjustment in the market for capital services	259
	Summary	193	11.7	The price of capital assets	261
	Review questions	194	11.8	Land and rents	261
			11.9	Income distribution in the UK	263
				Summary	265
				Review questions	267

12	Risk and information	269
12.1	Individual attitudes to risk	269
12.2	Insurance and risk	271
12.3	Asymmetric information	275
12.4	Uncertainty and asset returns	277
12.5	Portfolio selection	279
12.6	Efficient asset markets	284
12.7	More on risk	287
	Summary	289
	Review questions	290

PART THREE Welfare economics

13	Welfare economics	293
13.1	Equity and efficiency	293
13.2	Perfect competition and Pareto efficiency	295
13.3	Distortions and the second-best	300
13.4	Market failure	302
13.5	Externalities	303
13.6	Environmental issues and the economics of climate change	309
13.7	Other missing markets: time and risk	314
13.8	Quality, health and safety	314
	Summary	316
	Review questions	317
14	Government spending and revenue	320
14.1	Taxation and government spending	322
14.2	The government in the market economy	322
14.3	The principles of taxation	327
14.4	Taxation and supply-side economics	332
14.5	Local government	333
14.6	Economic sovereignty	333
14.7	Political economy: how governments decide	334
	Summary	337
	Review questions	338

PART FOUR Macroeconomics

15	Introduction to macroeconomics	343
15.1	The scope of macroeconomics: the big issues	344

15.2	Some facts and economic history	344
15.3	The circular flow	346
15.4	National income accounting	347
15.5	What GDP measures	355
15.6	International comparisons	360
	Summary	362
	Review questions	362

16 Output and aggregate demand 365

16.1	Components of aggregate demand	368
16.2	Aggregate demand	371
16.3	Equilibrium output	372
16.4	Planned saving equals planned investment	376
16.5	A fall in aggregate demand	377
16.6	The multiplier	380
16.7	The paradox of thrift	381
16.8	The role of confidence	383
	Summary	384
	Review questions	385

17 Fiscal policy and foreign trade 387

17.1	The scope of government activity	388
17.2	Government and aggregate demand	388
17.3	The government budget	393
17.4	Deficits and the fiscal stance	395
17.5	Automatic stabilizers and discretionary fiscal policy	398
17.6	The national debt and the deficit	399
17.7	Foreign trade and income determination	403
	Summary	410
	Review questions	411

18 Money and banking 413

18.1	Money and its functions	413
18.2	Modern banking	415
18.3	How banks create money	416
18.4	The traditional theory of money supply	419
18.5	The demand for money	423
18.6	Financial crises	427
	Summary	431
	Review questions	432

19	Interest rates and monetary transmission	434	22.5	The costs of inflation	508
19.1	The Bank of England	434	22.6	Controlling inflation	512
19.2	Traditional means of monetary control	435	22.7	The Monetary Policy Committee Summary	514
19.3	Lender of last resort	436		Review questions	517
19.4	Equilibrium in financial markets	439	23	Unemployment	520
19.5	Monetary control	442	23.1	The labour market	521
19.6	Targets and instruments of monetary policy	445	23.2	Analysing unemployment	524
19.7	The transmission mechanism	447	23.3	Explaining changes in unemployment	528
	Summary	454	23.4	Cyclical fluctuations in unemployment	535
	Review questions	455	23.5	The cost of unemployment	537
20	Monetary and fiscal policy	457		Summary	540
20.1	Monetary policy	458		Review questions	540
20.2	The IS-LM model	458	24	Exchange rates and the balance of payments	542
20.3	The IS-LM model in action	462	24.1	The foreign exchange market	542
20.4	Shocks to money demand	465	24.2	Exchange rate regimes	545
20.5	The policy mix	466	24.3	The balance of payments	547
20.6	The effect of future taxes	468	24.4	The real exchange rate	549
20.7	Demand management revisited	470	24.5	Determinants of the current account	550
	Summary	470	24.6	The financial account	551
	Review questions	471	24.7	Internal and external balance	555
21	Aggregate supply, prices and adjustment to shocks	473	24.8	The long-run equilibrium real exchange rate	556
21.1	Inflation and aggregate demand	474		Summary	561
21.2	Aggregate supply	477		Review questions	562
21.3	Equilibrium inflation	477	25	Open economy macroeconomics	564
21.4	The labour market and wage behaviour	482	25.1	Fixed exchange rates	564
21.5	Short-run aggregate supply	483	25.2	Macroeconomic policy under fixed exchange rates	570
21.6	The adjustment process	484	25.3	Devaluation	571
21.7	Sluggish adjustment to shocks	486	25.4	Floating exchange rates	574
21.8	Trade-offs in monetary objectives	489	25.5	Monetary and fiscal policy under floating exchange rates	578
	Summary	491		Summary	581
	Review questions	492		Review questions	582
22	Inflation, expectations and credibility	494	26	Exchange rate regimes	584
22.1	Money and inflation	495	26.1	The gold standard	584
22.2	Inflation and interest rates	497	26.2	An adjustable peg	587
22.3	Inflation, money and deficits	499	26.3	Floating exchange rates	588
22.4	Inflation, unemployment and output	500	26.4	Speculative attacks on fixed exchange rates	588

26.5	Antecedents of the Eurozone	593
26.6	The economics of the euro	595
	Summary	603
	Review questions	604
27	Business cycles	606
27.1	Trend and cycle: statistics or economics	607
27.2	Theories of the business cycle	608
27.3	Real business cycles	615
27.4	Supply-side effects of the financial crash	617
27.5	An international business cycle?	619
27.6	Summing up: schools of macroeconomic thinking	621
	Summary	627
	Review questions	628
28	Supply-side economics and economic growth	630
28.1	Supply-side economics	630
28.2	Economic growth: preliminary remarks	632
28.3	Growth: an overview	634
28.4	Technical knowledge	636
28.5	Growth and accumulation	638

28.6	Growth through technical progress	641
28.7	Growth in the OECD	642
28.8	Endogenous growth	647
28.9	The costs of growth	649
	Summary	650
	Review questions	651

PART FIVE The world economy

29	International trade	653
29.1	Trade patterns	654
29.2	Comparative advantage	656
29.3	Intra-industry trade	662
29.4	The economics of tariffs	665
29.5	Good and bad arguments for tariffs	668
29.6	Tariff levels: not so bad?	672
29.7	Other trade policies	673
	Summary	674
	Review questions	675
	Appendix: Answers to activity and maths questions	677
	Glossary	683
	Index	693
